BOLSHEVIKI CAPTURE IMPORTANT STATION IMPORTANT STATION

Barlier Tuesday—The Ebert government's promise to use force against the Bolsheviki have retained possession of all buildings captured yesterday, and, in addition, they have captured the Schloesiacho Bahnhof, one of the most important railway stations of Berlin.

As a result the underground railway system is tied up.

Government troops occupied the top of the Brandenburg Gate this morning, ambushing behind the bronze horses which the Prussians stole from France in 1870. They were prepared to hold this strategical position overlooking four broad parts of the city, but no direct attack was made on the gate itself until 3 o'clock, and then the Bolsheviki made three attacks, killing or wounding the men on top of the gate. There was also firing in Unter den Linden, where there were many casualties.

senator Cummins's statement was made to-day in the course of questioning of Interstate Commerce Commissioner Edgar E. Clark before the Senate Interstate Commerce Committee considering the railroad problem. Commissioner Clark had said he thought another year of government operation would demonstrate everything necessary for Congress to know before shaping a railroad propagam. He didn't think the five-year extension would add anything.

"The date should be fixed far enough in advance," said Mr. Clark, "to permit the roads to prepare for the changed conditions. I think Congress ought to withdraw from the President the power to turn back the roads on an hour's notice, and Congress litself ought to determine when they are to be turned back."

JAPAN WILL PARTICIPATE ON FOOTING OF EQUALITY Will Be Treated as One of "Big Five" at the Versallies Peace Conference.

BY ROBERT WELLES RITCHIE.

PARIS, January S.—Japan will be considered on a parity with the "big four"—America, Britain, France and Italy—as a fifth dominating power at the peace conference. Her delegates will sit with the plenipotentiaries of the other four nations in the preliminary conferences commencing some time next week.

Information to this effect was communicated to the correspondent to-day by the highest American authority, besides the President himself, now here. This concession to a power which was not represented at the old Versailles supreme war council's sessions and which did not participate largely in the actual hostilities is taken to indicate that Great Britain is still adhering to the spirit of the Anglo-Japanese alliance, and that she sponsored Japan's participation on terms of equality. The Mikado's representatives will reach Paris Friday.
